Develop Statewide Digital Connectivity Plan by May 2023

- **PURPOSE:** Will guide Utah's efforts to connect all residents with reliable & affordable high-speed internet service.

- **PROCESS:** Identify infrastructure and accessibility needs & develop goals, strategies and initial measures

Identify Needs

UNSERVED LOCATIONS

- Areas that have no access to speeds of at least 25/3 Mbps.

UNDERSERVED LOCATIONS

- Areas lacking access to reliable speeds of at least 100/20 Mbps.

■ Unserved area
■ Underserved area

Partner with Internet Service Providers

Determine:
- Existing service areas & offerings.
- Future service areas & offerings.
- Provide assistance to ISPs in developing design & cost estimates.

Federal BEAD funds will be available to assist with build out.

.

Connecting Utah Outreach Methods

Collaborate	Conduct	Host	Participate in	Work
Collaborate with Internet Service Providers, local governments & other stakeholders.	Conduct statewide & community outreach.	Host community workshops.	Participate in stakeholder & community events.	Work with tribal governments.
